B - WELL DATA BASE, WELL REPORTS AND WELL LOGS

WELL DATA BASE

Compiled Data Base of 191 Onshore Exploration Wells which includes the originally reported coordinates, well stratigraphy, spud dates and status etc...

There is an addendum of additional information on some of the old SINCLAIR wells namely Cafecongombe-1, Perfect Lady-1, Portella do Inferno-1, Quitonga-3 and zone of Praia Mussongo.

WELL REPORTS, COMPOSITE LOGS & SYNTHETIC LOGS

9 wells have been selected for their strategic importance in terms of their exploration objectives, results and the fact they are situated on, or close to the selected seismic lines listed in A.

C - GEOLOGICAL DATA

Surface geology map

"Carte Geologique du Bassin du Kwanza" colour quality map, scale 1:250,000, Sonangol/Total, constructed from information gathered in the field during the seismic campaigns 1968 - 1972.

Stratigraphic column

A recently constructed detailed stratigraphic table dedicated to this data package and directed at the Kwanza Onshore.

Cross sections

There is 1 cross section in this data package.

Seismic sections

There are 3 seismic sections in this data package.

D - STUDIES

The data package includes seven basin studies which detail the prospectivity, structure and stratigraphy of the Onshore Kwanza Basin:

- Africa Exploration Opportunities, Lower Congo and Kwanza Basin
- Bacia do Kwanza, Wells on old Concessions: Definitive Abandonment Report
- Bassin du Cuanza, Etude Gravimetrique de la Longa
- Angola – Kwanza Onshore Project: Gravity, Magnetic and Structural Study
- Kwanza Basin (Onshore), Fields and Reserves
- Kwanza Onshore Project, Presalt Composite Logs
- The Prospectivity of the Onshore Part of Kwanza Basin, Angola

E - MAPS

- Interactive ArcGIS map
